As per the problem statement, we have divided analysis into three sections: -

In this section we designed our first dashboard and tried to interpret the followings

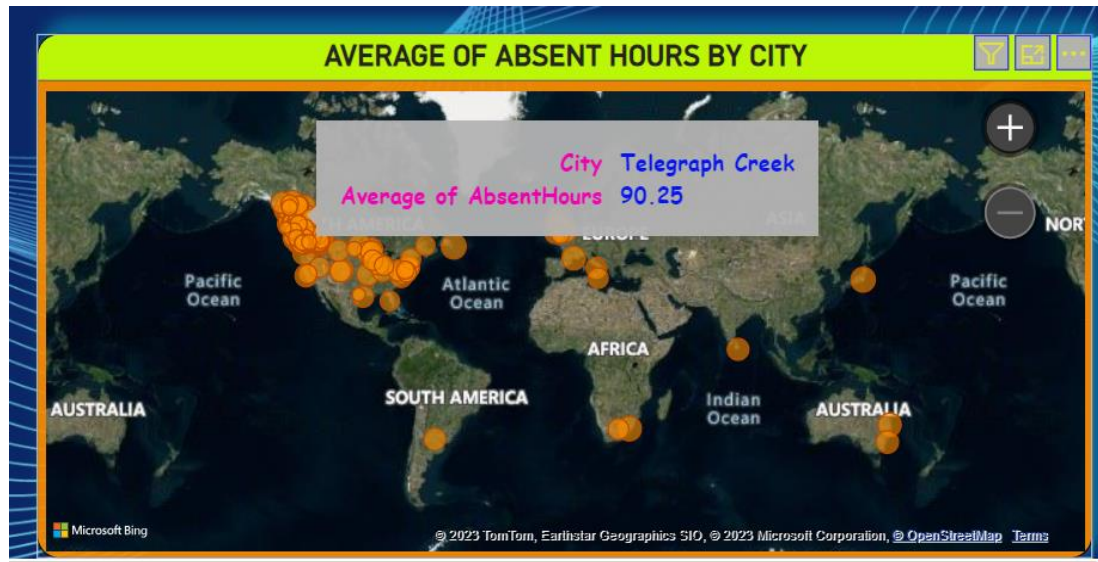

- ✓ Relation between Age and Absent Hours.

- ✓ Absent hours in relationship with Gender.

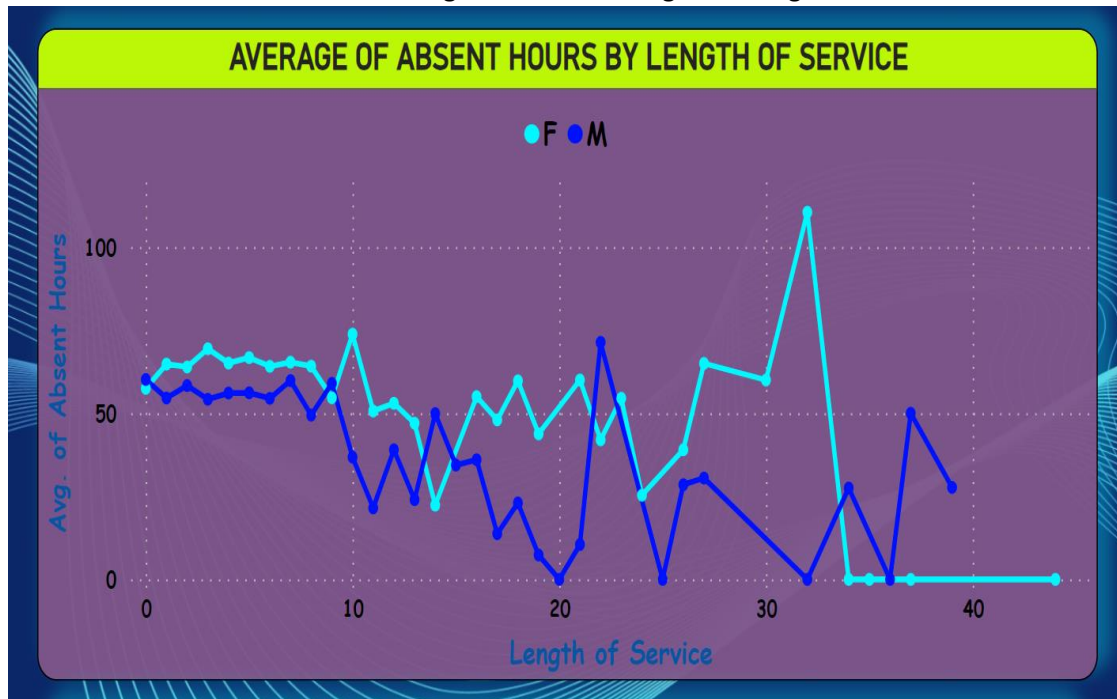

2. Influence of Absent hours in different cities.

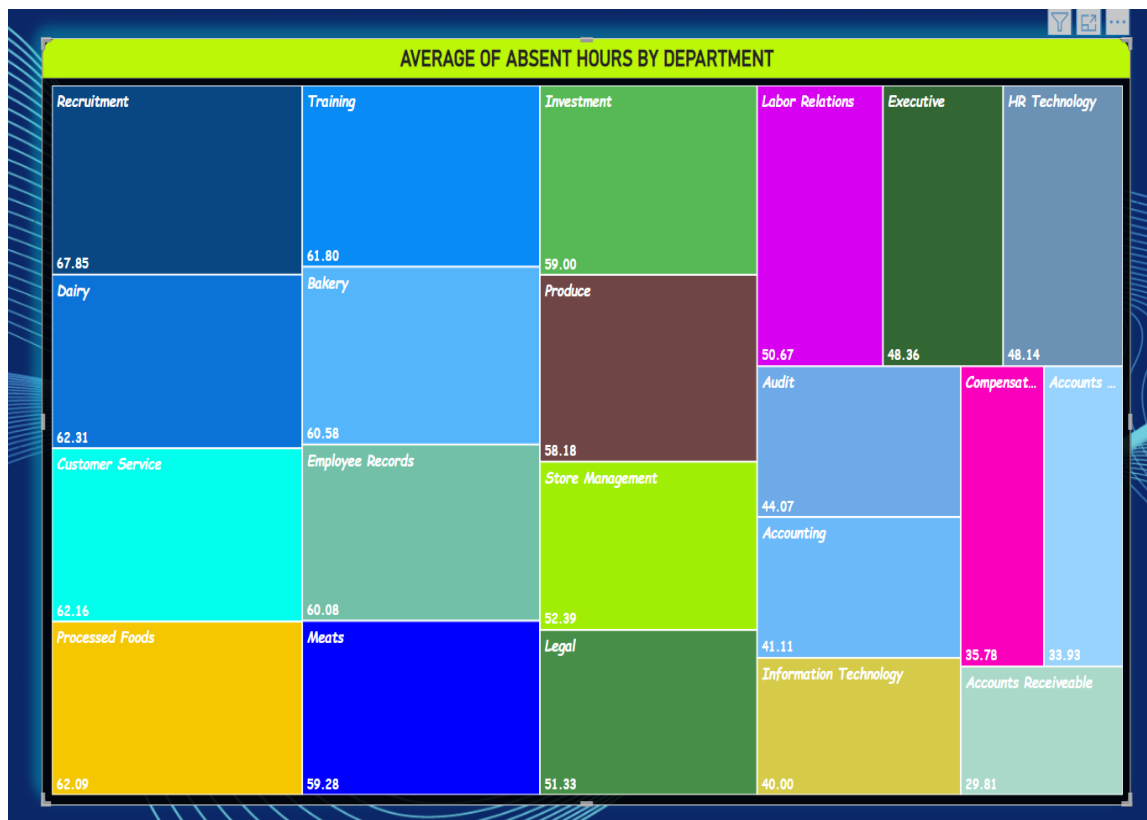

Here, we have our second dashboard and interpret the followings--

- ✓ Distribution of Absent Hours and length of service along with the gen

- In Dashboard 3, we tried to show Absent hours with respect to different departments along with their Gender.
